Character Types:

Players have the freedom to create their own characters in Heroes Malefactors. There are eight main character types to choose from:

1. **Fighters** are skilled in combat and can use a variety of weapons and armor. They are the backbone of any adventuring party and are always ready to fight for what is right.

2. **Rogues** are sneaky and agile characters who are skilled in stealth and deception. They are perfect for scouting ahead or getting into tight spaces.

3. **Wizards** are powerful spellcasters who can use a variety of spells to attack enemies, heal allies, or control the battlefield.

4. **Clerics** are divine healers who can heal wounds, cure diseases, and protect their allies from harm.

5. **Paladins** are holy warriors who fight for justice and righteousness. They are strong in combat and can also use a variety of divine spells.

6. **Rangers** are skilled archers and hunters who are at home in the wilderness. They are also skilled in tracking and survival.

7. **Druids** are masters of nature magic who can shapeshift into animals, control the weather, and summon creatures to their aid.

8. **Warlocks** are spellcasters who have made pacts with powerful demons. They can use their dark powers to curse enemies, summon creatures, and even control the minds of others.

Each character type has its own unique abilities and strengths, and players can customize their characters further by choosing from a variety of backgrounds, skills, and feats.

Setting:

The world of Heroes Malefactors is a dark and dangerous place. It is a world where the forces of good and evil are constantly at war, and where the innocent are often caught in the crossfire. Players will travel to a variety of different locations in the game, including dungeons, forests, mountains, and cities. Each location has its own unique challenges and dangers, and players will have to be careful if they want to survive.
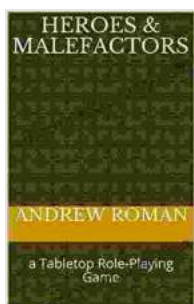

Gameplay:

Heroes Malefactors uses a d20-based game system. Players roll a d20 to determine the outcome of their actions, and they add their character's modifiers to the roll. The game is played on a grid, and players move their characters around the map to interact with the environment and fight enemies.

Combat in Heroes Malefactors is fast-paced and exciting. Players can choose from a variety of attacks and spells, and they can use their environment to their advantage. The game also features a unique "morality system" that tracks the players' actions and choices. Players who make good choices will be rewarded, while players who make evil choices will be punished.

:

Heroes Malefactors is a challenging and immersive tabletop RPG that is perfect for players who are looking for a unique and exciting gaming experience. The game's dark and gritty setting, its diverse character types, and its fast-paced combat system make it a must-play for fans of fantasy RPGs.
